

Science & Technology Australia

STRATEGIC PLAN 2014-17

Vision

To bring together scientists, governments, industry and the broader community to advance the role, reputation and impact of science and technology in Australia.

Mission

To be the peak body that provides a strong and influential voice for science and technology.

**Science &
Technology**
AUSTRALIA

Independent Voice

- > Build a stronger science and technology sector through strong advocacy and facilitating communication among stakeholders. Provide an independent, non-partisan and evidence-based voice for members to all levels of government.

Partnerships and Networks

- > Liaise with partners and, where needed, coordinate sector-wide responses to government policy and regulation.
- > Extend partnerships and networks beyond the academic sphere and engage with the commercial and business sectors.

Access and Insight

- > Provide members the opportunity to access the highest levels of government and major political parties.

Professional Development

- > Support member societies to grow and remain financially viable.

Success in Research & Careers

- > Support the research and career aspirations of Australian researchers.

Organisational Effectiveness

- > Remain operationally efficient and effective, with robust infrastructure, and well-trained staff providing quality services and leadership.
- > Focus on members' needs.
